Apply

Observe 26.0 version is found. Click Apply to continue.

Create a virtual machine

Congratulations! Your virtual machine is setup.

[Launch...](#) [Done](#)

*On saving the inputs, this view appears.
Click Launch to continue. This action will close this window and open
up the virtual machine window.*

Waiting for the macOS image...

26,4 MB / 17,03 GB

Download of macOS restore image begins. Wait for download to complete. If this image was already downloaded, “Preparing for installation” view will appear.

Note: If the download is paused due to system idle timeout or network interrupt, the download can be resumed but sometimes the resumption is not 100% guaranteed. If the resumption is not perfect, the next installation step will fail. The downloaded image has to be deleted in the Settings of the app and then this virtual machine has to be deleted and then create a new virtual machine.

Preparing for installing restore image

Once the download is complete, this view appears. Wait for the next step.

Once the preparation is complete, installation begins. This view appears. Wait for the next step.

macOS Tahoe Beta

This view appears. Wait for the next step.
